

Specifically Labeled NTPs

for production and NMR analysis of large RNA

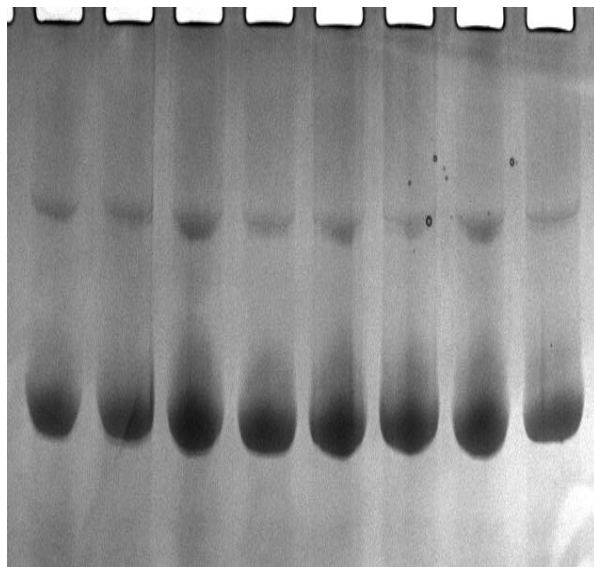

Ribo-NTPs

Specifically labeled
in the base with ^2H
and in the sugar with
 ^2H and/or ^{13}C

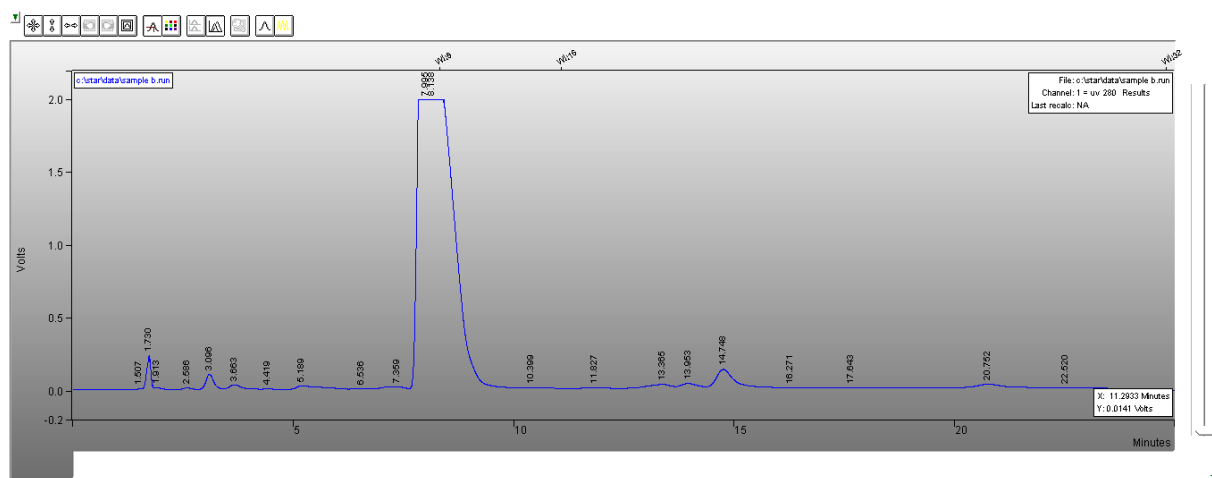

^2H : >97%

^{13}C : >98%

Purity: >95% (hplc)

All NTPs supplied as 20mg/ml solutions in triethylammonium salt form.

Please enquire for price and availability...and for any other variants of interest.

Current Product List
2- ² H-adenosine triphosphate
2,8- ² H ₂ -adenosine triphosphate
Perdeuteroribosyl-adenosine triphosphate
Perdeutero-adenosine triphosphate
¹³ C ₅ ribosyl-adenosine triphosphate
5-C(² H)-cytidine triphosphate
5,6-C(² H ₂)-cytidinetriphosphate
Perdeuteroribosyl-cytidine triphosphate
Perdeuteroribosyl-5-C(² H)-cytidine triphosphate
Perdeutero-cytidine triphosphate
¹³ C ₅ ribosyl-cytidine triphosphate
Perdeuteroribosyl-guanosine triphosphate
Perdeutero-guanosine triphosphate
¹³ C ₅ ribosyl-guanosine triphosphate
5-C(² H)-uridine triphosphate
Perdeuteroribosyl-uridine triphosphate
Perdeuteroribosyl-5-C(² H)-uridine triphosphate
Perdeutero-uridine triphosphate
¹³ C ₅ ribosyl-uridine triphosphate
